---

PROFILE SUMMARY

React.js Developer with 3 years hands-on experience building scalable web applications using the MERN stack. Passionate about creating user-centric, high-performance solutions. Strong understanding of frontend architecture, API integration, and responsive UI/UX design.

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Bootstrap5, Tailwind
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, VS Code, Courser, AI

PROFESSIONAL EXPERIENCE

1) Web Developer

Covance Softsol India, Hydrabad | *Feb 2025 – Present*

• Developed and deployed web applications using React.js and Tailwind CSS
• Integrated RESTful APIs and handled secure JWT authentication flows

2) Frontend Developer (MERN Stack)

Redphantom Tech Novelty, Pune | *Feb 2023 – Jan 2025*

• Built custom dashboards and reusable components in React and Redux
• Used MongoDB to design schemas & handle queries for dynamic content

3) Frontend Developer Intern

Prepbytes, Gurgaon | July *2022 – Dec 2022*

EDUCATION

Bachelor of Engineering   6.96   (PY: 2020)
Savitribai Phule Pune University

PERSONAL PROJECTS

    1) AINET Website

Tech: HTML, CSS, JS, React Js, Tailwind, Node JS, Express, Mongodb

Host URL: https://theainet.net/

This project utilizes the technologies mentioned above and serves as a platform for an English teachers' community.

    2) **React Blog Project**

Tech- HTML, CSS, JS, React.js

Host.URL: https://paresh-blog-project.netlify.app/

This project leverages the technologies mentioned above, with product data managed in MongoDB. Upon purchasing a product, backend processes such as order handling and secure payment gateway integration are executed seamlessly.

    3) **Ecommerce Project**

Tech: HTML, CSS, Tailwind, JS, React.js, Node.js, Express, MongoDB

Host URL: https://clothe-ecom.netlify.app/

In this project, I used the technologies mentioned above. Product data is stored in MongoDB. When a user purchases a product, backend operations are triggered, including order processing and integration with a payment gateway.

    4) **Infinity Cans**

Tech - HTML, CSS, JS, Tailwind, React.js

Host URL: https://infinity-cans.netlify.app/

This project was developed for a digital can printing company that offers customized printing services on cans and aluminum bottles.

    5) Portfolio

Tech - HTML, CSS, JS, Tailwind, React.js, Emailjs

Host URL: https://paresh-port-folio.netlify.app/

A personal portfolio project built with the MERN stack to showcase my experience, skills, and real-world projects — included as part of my resume
